- ✗ No return necessary for a replacement. Simply email us picture of the tool, and let us know where to send the replacement.
- ✓ Expert support. All of our staff has extensive metal fabrication and forging knowledge as well as SAE standards knowledge.
- ✓ Industry leading refund policy in case we cannot help out to the level we want.

WARRANTY CONDITIONS

We want to be the tool company that we buy from when working on our cars and trucks. However, we know from personal experience, sometimes a breaker bar is used where it shouldn't be or bob has had 1 too many cold beers in the 105 degree summers of factory life and he abuses the air gun with the sockets.

Because of these reasons and others, we have to limit our replacements to 1 per purchase per piece. For example, if you buy a set and break a 21mm and 20mm impact socket, you can get both replaced, but only once.
